

(b)(3) (b)(6) (b)(7)(C)

and I helped a corpsman, who was performing (CPR) on another hanging victim, ISN 588. The corpsman was conducting chest compressions, and was on his knees, on the table where ISN 588 was laying. I helped to stabilize the corpsman, by holding down his legs and keeping them together. The corpsman did shifts for CPR with a second corpsman. I then went to the other side of the table, and assisted holding an oxygen mask in place over the detainee's mouth. While I was holding the oxygen mask in place, I moved the detainee's hand out of the way, so I could do a better job holding the oxygen mask in place. I don't recall off hand if I was able to bend the elbow. There was a problem because the detainee's mouth would not open, so another corpsman arrived with a special instrument to try and pry the detainee's mouth open. She struggled, and she was able to open the detainees' lips, but the detainee's teeth were clenched shut. I noticed at this point, when the lips were opened, that there were a large number of small pieces of goldish brown material, in the detainee's mouth. I could not tell for sure what these were. I was unable to tell if they were, for example, pieces of food or some other substance. (b)(3) (b)(6)

(b)(3)  
(b)(6)  
(b)(7)(C)

A surgeon also came to assist, but was still unable to pry the detainees' jaw open. The detainee's jaw was clenched shut. I heard this same physician comment that the body appeared to be in the preliminary stage of rigor mortis. ISN 588's chest was a natural color. Only the fingers and toes were blue in color. (b)(3) (b)(6)

At one point, while the corpsmen were attempting life saving measures for ISN 588, they attempted to revive him using a machine, which had tubes which connected from a machine to the detainee's body. We were told to stand clear. This device, which was probably a defibrillator, yielded no response and no movement on the part of ISN 588.

(b)(3) (b)(6) was in the room for part of the time that the corpsmen were trying to revive ISN 588. (b)(3) (b)(6)

#### PRONOUNCEMENTS OF DEATHS OF ISN 693 AND ISN 588

ISN 693 was pronounced dead at 0112, and ISN 588 was pronounced dead at 0115.

These pronouncements were both made at the clinic. (b)(3) (b)(6)

I went to the original room to look at ISN 693. (b)(3) (b)(6) (b)(7)(C) was talking to MA1

(b)(3) (b)(6) He told him to take charge of the bodies and not let anyone enter the room any more. Admiral Harris provided a quick de-brief to us, and thanked us for our cooperation in handling this situation. (b)(3) (b)(6)

(b)(3)  
(b)(6)

#### INITIAL INFORMATION ON ISN 09 (b)(2)

By this time, I already knew, from contact with other camp personnel, that there was a third (b)(2) alert. I later found out that this referred to a third hanging victim. This (b)(3) (b)(6)
