These days, we protested many times.

Wed, July 15: It was a peaceful protest; we stayed in rec area- 20 people, camp S- because one of the detainees has a pain in his back- he can’t walk, can’t shower, can’t go to rec area, can’t even shower because he doesn’t have a wheelchair. This condition was allowed to persist for four months. The straw that broke the camel’s back (so to speak) was when they took away special chair used to let people in his condition use the toilet. Doctor says detainee is a malingerer. We asked to speak with higher-ups. EOIC (one bar) came to talk with us, we explained problem. EOIC said detainee doesn’t need bathroom chair because doctor says he doesn’t need it. (The assistant of OIC EOIC is in charge of all the camps, camp S. Commander has two bars; assistant has one bar. After we argued with EOIC, he said- no return of chair. They said detainee threw chair at soldier so they took chair away as punishment; then they refused to return it because they said he didn’t...
 They continued protesting on July 15 by staying in the recreation area. The higher-ups reached out to me to go back to my cell or wait for them to punish me for not checking with the doctors.

July 17 - TheEOIC came to see a higher ranking officer came. We told him of the situation, but he gave the same response as EOIC. I argued with him. I asked why this detainee couldn’t go to rec or shower for four months if there’s no problem? We asked whether this was really based on doctor’s recommendation or punishment. Higher official said it was punishment. He left, then came back at 8:25 pm. When he returned, he said he had read all the reports, and this was a punishment. Official said he cancelled 10 out of 20 days of punishment; only six to go. We said, how can you “punish” a man who needs a wheelchair by taking away his wheelchair? Official said, “We’ll take him to the doctor and see what the doctor says.” Official said he’d come back the next day. They went back to our cells on a Saturday, July 18, at 12:50 pm. At 12:50, EOIC came with a translator. I was in my cell. The EOIC told me that the detainee had an appointment with a doctor after the noon prayer. After prayer time, a
The hunger strike finally collapsed after 15 days, on Friday, a man who had been on hunger strike for days on end, was released. The hunger strike was in response to the mistreatment of prisoners at the camp. The prisoners were being held without proper medical care, and the conditions were deplorable.

Because of the strike, the prisoners were only being fed 3 meals a day, and those meals were insufficient. The prisoners were being force-fed, and many were on hunger strike for days on end.

On July 22, 2004, a prisoner named Yassin was transferred from Admirol to BHU. He was one of the prisoners who had been on hunger strike for days on end. The prisoners were demanding to know the results of their protest.

Two days later, a letter arrived. It was written in Arabic and said that the prisoners were not going to be examined. The prisoners were demanding to know what was going on and why they were being held.

The prisoners were demanding to know what was going on and why they were being held. The prisoners were demanding to know what was going on and why they were being held.

He was also hunger striking to protest the other punishment.
The other man who collapsed was on hunger strike - he was punished by withdrawal of medicine, no shower, so they wanted to search his cell, so he said send me to the shower or rec area in the meantime, so they TREP'd him. Official had said "We'll make life difficult for him."

This all marked a change from when I was last here. It all started on July 15. Now, new punishment every day. Rumors - differences within camp administration, between those with Obama and Bush die-hard. Abdulsalam's experience was not unique; another man found a pair of scissors, another time a nail clipper, another time a metallic object; there was an Afghan in BHTU - they put shackles and chains under the bed. Afghan gave items to nurse. I am scared for my life. I want you to tell the judge.
We will stay on our hunger strike until they cancel the punishments. We need to know why you’re withholding special meals, medication, rec time. Until, we have received no explanation. We are frightened b

WADOAH -

heard from man who came from BHUD Camps in Yasin’s cellblock

USBEK

says Wadah

says he took sleeping pill from nurse, slept. They saw five mins later, they heard soldier knocking of Wadah’s on door. Nurse said, he to doctors soldier don’t disturb him; he just went to sleep. Soldier said but he’s not breathing, so they entered his cell. Afghan across from cell saw them giving CPR, blood coming out of his nose, foam coming out of his mouth. They stayed in cell 1 hour, ten mins, claiming they were trying to examine him and revive him. Why leave him there 70 mins? Why not take him to hosp right away. Then they moved him.
The Americans claim his underwear was around his neck—They accuse him of strangling himself with underwear—pulling out the underwear to choke himself (Psychiatrist said, They found him still hung.) This really spoaks the men, scares them.
