**Summary of Incident:** At approximately 0700hrs 12 February 2004, Block personnel approached detainees for the purpose of escort to recreation and shower; detainees refused. Block personnel informed the detainees that movement to recreation and shower was not optional; and again, the detainees refused. After the detainees refused the chain of command at Camp, at approximately 0715hrs the primary IRF team at Camp was assembled, medical support was called along with video camera support, and the recreation area was prepped. Once medical support and video support were present at the block, each of the detainees were given another opportunity to comply and refused yet again. Ordered the 5-person IRF team to enter into their respective cells and forcibly removed detainees from their respective cells and move each one to the recreation area. Once in the recreation area, all detainees received medical attention. Once medical personnel cleared each of the detainees, the IRF team moved detainees to their respective cells. The cell extraction of detainees went well. There were no injuries to any of the assigned block personnel, IRF team members or detainees.
