Presiding Officer: Assisting Military Officer please read your comments from the Enemy Combatant Election Form.

Assisting Military Officer: The Detainee's ARB interview was conducted on 21 December 2005 and lasted 100 minutes. After reviewing the ARB's purpose and procedures, the [Farsi] translated Unclassified Summary of Evidence was read to the Detainee. The Detainee stated he understood the difference between the CSRT and the ARB. When asked if he wanted to attend the ARB, the Detainee replied with the affirmative. When asked if he wanted to present a written or oral statement, or have the AMO speak on his behalf, the Detainee stated he would like to prepare written responses to each allegation in the Unclassified Summary of Evidence which he would like to read to the Board after each is read by the DMO. He added that he would also like to make an overall statement at the conclusion of the discussion of the Unclassified Summary. The

Detainee initially indicated he wanted the assistance of the AMO but after further discussion he indicated he would determine to what extent he wanted assistance after he developed his written responses. A follow-up interview was scheduled for 22 December 2005 and lasted 90 minutes. The Detainee provided copies of his written responses to the Unclassified Summary of Evidence and asked many questions and requested that the AMO assist him in remembering to verbalize key dates, times and events in his responses to Board Members questions. The AMO recorded a brief summary of the Detainee's words and agreed to assist as much as possible. The Detainee was calm and cooperative throughout both interviews.

***The Designated Military Officer presented the Unclassified Summary of Evidence, Exhibit DMO-1, the FBI Redaction Memorandum, DMO-2, the Terrorist Organization Reference Guide, DMO-3, CITF Redaction, and DMO -4 to the Administrative Review Board.***

Detainee: Is this the Unclassified Summary that was given to me?

Presiding Officer: Yes.

***The Designated Military Officer stated that a copy of these exhibits had been previously distributed to the Assisting Military Officer for presentation to the Detainee.***

***The Presiding Officer noted from the Enemy Combatant Election Form that the Detainee wanted to respond to each item of the information from the Unclassified Summary as it was presented.***

***The Designated Military Officer gave a brief description of the contents of the Unclassified Summary of Evidence, Exhibit DMO-1 to the Administrative Review Board to assist the Detainee with answering the statements.***

Designated Military Officer: (3) The following primary factors favor continued detention: (3.a) Commitment: The Detainee stated that in approximately 1986, he joined jihad. He fought against the Russians for five years during which he was shot in the neck and leg. He was fighting for jihad as a doctor for two years. Then he became a sub-commander or four years.

Detainee: In the name of Allah, the most compassionate, the most merciful. With all respect to the members of the Administrative Review Board, I would like to make a statement to the allegations. During the Russian occupation all the people of Afghanistan started an uprising against the occupiers and they gathered, organized and joined in big and small groups while the whole world supported this cause, particularly the Islamic countries and free western countries, especially America. I had expertise in medicine and while I was a refugee in Pakistan I went to Afghanistan for two years and a few months and helped the Mujahideen. While helping the Mujahideen I got injured. After the departure of the Russian forces from Afghanistan I got busy with my education and left

ISN 1154  
Enclosure (6)  
Page 2 of 18

UNCLASSIFIED //~~FOUO~~

all political and military activity behind. I got busy in my personal life and my education. I was a refugee in Iran the whole time during the Mujahideen's and Taliban's government. I went back to Afghanistan after the establishment of democracy to help the central government and the people of Afghanistan. Since I got married and changed my personal life, I left all activities behind me. I went there only a few months each year and returned back. There was not any two years. During those five years I went to Afghanistan for a few months.

Presiding Officer: So you lived in Pakistan for five years and then came back and forth a couple months a year to Afghanistan.

Detainee: Correct.

Designated Military Officer: (3.b) Training: The Detainee was trained by the Harakat Manqalab Aslami party to use the AK-47 during the jihad against the Russians. The Detainee did use the AK-47 during the jihad.

Detainee: During the Mujahideen's Jihad, I had a weapon for my own protection. There was no training required on how to use an AK-47 and all Afghans had weapons and knew how to use them.

Designated Military Officer: (3.c) Connections/Associations (3.c.1) The Detainee fought as a group leader with Nasrullah Mansour during the Russian Jihad. Nasrullah had a son, Saif Rahman Mansour, who became powerful in the Taliban.

Detainee: During the Jihad I was with the Mujahideen who were with the Harakati Inqilab-e- Islami (Islamic Revolutionary Movement Party), which was formed in Afghanistan. It's not comparable with western organizations, rather everybody in their own area would get together with Mujahideen and it was not important to the people which group was with which organization. Nasroullah Mansour was one of the leaders of Islamic Revolutionary Movement, and my connection with him was like any other Mujahid's connection with the Islamic Revolutionary Movement Party. I don't have any personal connection with him; he was killed in 1371, which would be the end of 1992 or the beginning of 1993. This Islamic Revolutionary Party had a few leaders and the top leader was Mali Mohammed, and Nasroullah was one of the leaders not the top one.

Designated Military Officer: (3.c.2) The Detainee was introduced to a Mujahedin group, Hizb-I-Islami. He then went back to Afghanistan for over a month, where he was introduced to jihad. Approximately two years later, the Detainee was wounded in the leg by government forces, after which he returned to Pakistan.

Detainee: As mentioned above, during the occupation of Afghanistan by Russia, I served with the Mujahideen of the Islamic Revolutionary Party as a medical doctor. I went to Afghanistan with the Mujahideen a few months out of a year and I have no ties with any other political group and am not part of any group.

UNCLASSIFIED // ~~FOUO~~

Presiding Officer: You were wounded in the leg by pro-Russian Afghan Government Forces.

Detainee: Yes.

Designated Military Officer: (3.c.3) A source indicated that as of June 2002, the Detainee claimed that he was an agent of influence for Iran.

Detainee: I consider connection with foreigners a big deficiency and betrayal to my country, therefore I have never used this word. I consider this a lie and false accusation. I was a refugee in Iran. There are more than two million [Afghan] refugees living in Iran and more than that live in Pakistan and other countries. If any of these people were to return to their country to help and serve and face an accusation like this, would anybody dare to come back to their country? Does living in another country as a refugee make him an agent of that country? Is not this accusation, without cause, made of thousands of educated and intellectual people, the work of the enemies of the country who don't want these people to return to Afghanistan and democracy? This is exactly what this accusation without cause is: a plot, a trick, and conspiracy of the people who wanted to keep me away from the scene.

Designated Military Officer: (3.c.4) A foreign government source reports that the Detainee worked for the former Taliban Eight Division Commander, Saifullah Rahman Mansour. The source indicated that the Detainee acted as Mansour's representative in Iran.

Detainee: Neither I saw or know Saifullah Rahman Mansour, nor do I have any connection with him. After the fall of Taliban, I only heard his name on the radio. During the Taliban I was not in Afghanistan and I never mentioned in my written defense statement in the first court that I have been a representative of these kinds of people. I consider any connection with these people whose hands are tainted with the blood of our nation a deficiency and a shame.

Designated Military Officer: (3.d) Other Relevant Data (3.d.1) A source said that the Detainee said the Iranians had given him \$50,000 United States Dollars to distribute among Loya Jirga (Grand Assembly) delegates to buy their votes for the upcoming July 2002 parliamentary election.

Detainee: Before I even start answering these allegations since the next two allegations talk about Loya Jirga (Grand Assembly) I would like to talk about Loya Jirga. Loya Jirga is a national process in Afghanistan that was founded in Germany. After the fall of Taliban, all of Afghanistan and Germany gathered together and decided to clean up the mess after the war (detainee was interrupted by Presiding Officer).

ISN 1154

UNCLASSIFIED // ~~FOUO~~

Presiding Officer: We are familiar with the Grand Assembly and it brought representative throughout Afghanistan together to establish a post Taliban government, we know that.

Detainee: Thank You, that's very good that you know. When they decided to do the hearing (Loya Jirga) the first one was in Afghanistan. Not only Afghan representatives were present, there were representatives from all over the world who participated in that one. That Loya Jirga there was about 1,550 delegates and the purpose of the Loya Jirga was to decide on whom the President was going to be in the transitional government. There was not any discussion about anything other than choosing the President of the transitional government. There weren't any talks about Parliament and they didn't discuss Parliament in that Loya Jirga at all.

Presiding Officer: Okay, I would like to stop now and get back to the allegation and find out whether you provided money to delegates of the assembly to buy their votes.

Detainee: It was all connected to the allegations. The two allegations were talking about me and what I did with Loya Jirga and that's why I want to give extra information.

Presiding Officer: Okay thank you very much. I would like for you to now answer that allegation.

Detainee: There wasn't any place for buying or selling votes in Loya Jirga. If you logically look at the history of Loya Jirga and this allegation, you would probably know that it is a false and baseless allegation. Now I am going to answer it. These reports are false, and I neither paid any members of the Grand Assembly nor did I go there to become a member. There were no votes to buy in this provisional National assembly because the voting was for the presidency. Most of my friends and I voted for Karzai and there was no need to buy any votes for him. Furthermore, during the election of the Grand Assembly none of the members of the Gardez zone spend any money. This is an obvious lie because the election was controlled by the UN and there was no problem in the Gardez zone. If there were any problems a report would have been given to the Grand Assembly or UN. I did not elect myself to become President and President Karzai did not need to buy a vote, everyone voted for him. I did not elect myself, why would I buy votes for other people? That just doesn't make sense.

Presiding Officer: Do you know if the Iranians were trying to influence the delegates during that assembly?

Detainee: They couldn't do that because the Iranians did not have a representative or allies there. Karzai was the only candidate and the people of Afghanistan chose him.

Designated Military Officer: (3.d.2) A source said that the Detainee distributed this money to five Loya Jirga members from Paktia Province. The Detainee stated that he

ISN 1154  
Enclosure (6)  
Page 5 of 18

UNCLASSIFIED // ~~FOUO~~

expected to be elected to the parliament as one of the two representatives from Pakita Province.

**Detainee:** There were about 1,550 participants in the Preliminary Grand Council. If these five members are well known please ask them who gave them money and why? If one of them says I gave them money, then I will admit to all the allegations because this issue is a pure lie. For better clarification of this fabrication I should mention that parliament is not the responsibility of the Grand Council. It was organized this year and the election took place on September 18, 2005. How is it possible to give someone money for gaining a vote that is needed three years later?

**Designated Military Officer:** (3.d.3) A foreign government reports that as of late April 2003, Mansour reportedly was receiving financial and logistical support from Iran.

**Detainee:** This question does not relate to me and there is no need for me to answer that.

**Designated Military Officer:** (3.d.4) On 10 August 2003, the Detainee returned to Afghanistan from Iran in order to distribute money to anti-coalition militants on behalf of Saifullah Rahman Mansour. The Detainee returned to the Gardez, Afghanistan area with approximately \$150,000 United States Dollars to be distributed to tribal leaders and representatives of 14 anti-coalition militant groups in Gardez area of Pakita province, Afghanistan. The Detainee planned to hold a meeting with the 14 representatives on the night of 12 August 2003 or 13 August 2003, at which time the Detainee planned to distribute the money.

**Detainee:** I returned to my homeland along with my brothers and friends to serve the people, support the central government, stabilize democracy and rebuild our country. I wanted to facilitate the conditions for the return of my family, to build my house and start a job. I have neither been sent to Afghanistan by anybody else nor have I carried money from anyone. My company was Dr. Ismail, my brother, and Dr. Reza, my cousin, who were not ordinary people. How could such well-known individuals with established academic backgrounds and personalities transfer money in such difficult and unsafe conditions of that time? Hearing the name of Mansour and other criminals like him is reminiscent of the hardship and blood shed era for the people of Gardez and I have never had any connection with him. I haven't had any links with any financial resource nor have I had any money with me. This plot was coordinated by liar-conspirators to achieve personal gain. On the other hand there are no anti coalition groups in Gardez. The city of Gardez consists of 14 Farsi speaking villages that were rescued from blood shed and hardship by the establishment of democracy and a coalition government. They seek happiness and prosperity with the central government under the leadership of Mr. Karzai. They never associated with the enemies of this government but always showed their total support in war against its enemies. I was in Gardez for two days, if I had money with me then, what happened to that money? You have my handbag with you. I want to mention one thing, here they are talking about 14 anti American groups in Gardez. I can assure you that there is not even one anti-American or anti-Coalition group. I would like to

ISN 1154

Enclosure (6)

Page 6 of 18

UNCLASSIFIED // ~~FOUO~~

mention one more thing. When I am talking about those 14 villages, none of the tribal leaders are anti-American or anti-Coalition, neither are the people of those villages. We don't have anyone in Gardez that would be against the current government. We have very bad memories from the leadership of previous governments, therefore we are always there to help and support our current government.

Presiding Officer: Do you know any of these conspirators that are against you?

Detainee: Yes, it is mentioned later and my statement. We will talk about it.

Designated Military Officer: (3.d.5) The Detainee left Afghanistan in approximately February 2003, when he learned that United States Coalition Forces were seeking to detain him. The Detainee is reported to have transported the brother of Saifullah Rahman Mansour, Latif Mansour, along with several unidentified members of Saifullah Rahman Mansour's family to an unknown location in Iran at that time.

Detainee: I went to Gardez for the first time after the fall of the Taliban in late April 2002 to see my country and family. With the encouragement and support of the people I participated in the election process for senators and was elected a member of the senate from the people of Gardez. After three months and a few days in (early August) I went to Iran via Afghan Airlines and in 2003 I was in Hajj/ Mecca. Everybody knows I was in Hajj in that year and the time of the Hajj is very clear and we call it Eid (Muslim holiday at the end of the Hajj). The people of Gardez welcomed us because it is a custom to welcome Hajjis; they go to visit those who return from Hajj. I have some documents in that regard, and Hajj cards might be in my wallet. Since I was not in Afghanistan, how could the coalition forces chase me? Since I have never committed any wrongdoing, the coalition forces have never been following me. In the month of August that year also I was welcomed by the people. I have never traveled to Afghanistan secretly and that report is wrong. As I mentioned earlier, I have no relation to Mansour's family. They are from Zurnat and I am from Gardez, and in the time of Taliban I haven't gone to Afghanistan. I would like to say one more thing, I never had fear or thought for one minute that American Forces were following me or that they would be after me. I thought they were my friends and that I was their friend. I never had the fear of being followed by Americans or Coalition Forces. About Mansour's family, in Afghanistan there are a lot of sensitive areas besides the culture differences, the religious differences, and especially during those areas were sensitive more than ever. Mansour's family is Sunnis and I am a Shiite so there is no way they would trust me or allow me to travel with their family.

Presiding Officer: Thank you, understood.

Designated Military Officer: (4) The following primary factors favor release or transfer (4.a) The Detainee stated that he never provided support to the anti-coalition militia, the Taliban or al Qaida. The Detainee said that he fully supported the Coalition Forces and that there were recorded conversations with the Coalition Forces about the promise of

ISN 1154  
Enclosure (6)  
Page 7 of 18

UNCLASSIFIED // ~~FOUO~~

democracy in Afghanistan. The Detainee strongly believes that with the help of the Coalition Forces, democracy in Afghanistan is possible today. The Detainee stated that even during the jihad, he did not work with those who were against the United States.

Detainee: I have never cooperated with them and I have been against them. In the time of their government I was a refugee and I preferred all the difficulties of being away from home over accepting any position with them. In the time of their government I did not go to Afghanistan for even one single day to take care of my estates and personal property. After the fall of the Taliban, I went to Afghanistan for the first time in late April 2002. With the encouragement of people, I was the speaker for Gardez Grand Council and I talked in support of democracy and the coalition forces as a token of appreciation for them (Coalition Forces). This scene was filmed by international observers. I believe that the existence of Americans is very beneficial to the stabilization of democracy and preservation of peace in Afghanistan. I have never been in ideological agreement with those who are against Americans. In that meeting I actual talked in favor of President Karzai, his government, Coalition Forces and the Americans. I talked against anti-government forces, anti-American forces, communists, and any other groups that were against our government. I actually revealed their crimes and the atrocities that they have done to our people, I revealed. After that meeting, these anti-government groups and the communists, they were against me and they did propaganda that I have become an American or that I have become Americanized. There were rumors that I took money from the Americans and that's why I was speaking in their favor. They were saying these were not my words an America was paying me. After that I was threatened and these conspirators started to lie about it.

Designated Military Officer: (4.b) The Detainee advised that he only traveled with \$550 United States Dollars prior to his arrest.

Detainee: I only had enough money for my own expenses during this trip and did not have any extra money.

Presiding Officer: Do you normally travel with U.S. Dollars?

Detainee: It is just much easier to travel with American Dollars because if we travel with Iranian money or Afghan money we would have to have a huge amount with us because it has no value. So a lot of Afghans like to travel with American money because it takes up less space.

Designated Military Officer: (4.c) The Detainee denied allegations against him including distributing Kalashnikov rifles, talking about selling or transporting Kalashnikovs on the radio or being with Mansour against the government.

Detainee: I never had any ties or links with anti government groups and never associated with them in any area. As previously mentioned I did not assist Mansour or anybody else

ISN 1154  
Enclosure (6)

UNCLASSIFIED // ~~FOUO~~

against the central government of Mr. Karzai. I was a supporter and helper for the government everywhere.

Designated Military Officer: (4.d.) The Detainee stated he never fought against nor assisted anyone else who fought against any United States Forces.

Detainee: I was not in Afghanistan during the Taliban regime, therefore I did not participate in any anti-American or anti-coalition movement or operation and never had any associations or relations with those who oppose the central government. There are several facts that prove my opposition against Taliban. I was an immigrant, homeless and straggly during the Taliban rule. They are extremist Pashtuns, while I am Farsi speaker. They are Mullahs and Sunni Muslim, while I am educated and a Shiite Muslim. They are narrow minded and cruel while I am an intellectual individual who looks at everything under the light of peace, security and establishment of a strong central government. Therefore there is nothing in common between me and the Taliban or al Qaida. I have always been against their thoughts, ideology and actions.

Designated Military Officer: (4.e) The Detainee denied being a member of the Taliban or al Qaida and stated that he is against the Taliban.

Detainee: This allegation was answered with the foregoing allegation 4.d.

Designated Military Officer: (4.f) The Detainee stated that the 11 September 2001 attack was a big crime against humans and that everyone who is responsible are criminals.

Detainee: Yes, that's true. I call the killing of innocent people under any name a crime to humanity, and especially condemn this tragedy and call those who were responsible for these attack criminals.

Designated Military Officer: (4.g) The Detainee indicated that the United States arrival in Afghanistan was the saving of the Shia people.

Detainee: During the Taliban regime Shiites and Farsi speakers had to go through lots of difficulties. They had to face massive killings, lootings and invasions. In many areas, people even did not have the right of performing their religious rituals, beliefs or even speaking the Farsi language. Establishment of democracy with the help of American power removed all these tragedies and for the same reason Shiites look at this as a hope for their survival. Now thanks to democracy and peacekeeping coalition forces, one of Mr. Karzai's assistants is Shiite and there are a few Shiites ministers working in the current cabinet. In our new constitution the Shiite religion has been recognized as an official religion and the Farsi language is the official government language as well.

Designated Military Officer: (4.h) When released, the Detainee intends to go to Gardez, Afghanistan and be a medical doctor.

ISN 1154  
Enclosure (6)  
Page 9 of 18

UNCLASSIFIED // ~~FOUO~~

**Detainee:** Yes, I would like to serve my people and my government under the light of peace and freedom with honesty and proficiency in the medical area and any area they would want me to work.

**Designated Military Officer:** (4.i) The Detainee claimed he was wrongfully detained. He believes that someone told American Forces he brought back \$150,000 United States Dollars from Iran to Afghanistan to fund anti coalition militant forces. The Detainee denied these allegations. The Detainee further related he has never had more than \$1,000 United States Dollars with him.

**Detainee:** I am certain that my detention is a mistake. As a result of my detention, other intellectual individuals like me who are determined to return to their homeland with the intention of serving their country and people will hesitate to return because of fear of facing similar problems. This would do damage to our government. This would make professionals who are faithful to our government run away. I, as a servant and representative of the people and as a member of the Loya Jirga, who's intention was nothing but serving the people, had to face these difficulties because of false reports. Making false reports is not a hard thing to do in Afghanistan, especially for the former communists of KHAD (Government intelligence services), who were trained by the KGB. It is easy for them to find governmental documents and seals. In order to achieve their goals they would use any means to eliminate opposition from their path. They are attempting to weaken the government and to harm the reputation of coalition forces. I am assuming this allegation is just part of the imagination of the people who made this report about me, they probably created this allegation.

**Presiding Officer:** Who created the allegations?

**Detainee:** The people who reported against me.

**Designated Military Officer:** (4.j) The Detainee listed numerous groups that could benefit from his detention. The possible opponents included opponents in a land rights court case, defeated candidates for Loya Jirga, the intelligence service, and former Communists.

**Detainee:** This plot and conspiracy against me was organized by personal enemies, political opponents, and even the Taliban and their remains and former communists with the help of KHAD, and individuals trained by the KGB. They achieved their goals. It is necessary to mention that from long before and especially because of war and killings there are numerous differences. Conflicts and fanaticism based on tribal, language, and religious, ideological, political and territorial differences exist. Unfortunately, due to the lack of central government and national autonomy, each group uses all possible tools to remove their opposition. Unfortunately in Paktia province, in addition to language differences between the majorities of Pashtuns and Farsi speakers in the city of Gardez, and Shiites, especially in our village, which is the only Shiite village in the entire Paktia province, there are deep differences among the different groups. For example, conflicts

ISN 1154

Enclosure (6)

Page 10 of 18

UNCLASSIFIED // ~~FOUO~~

between communists and Mujahideen's. The communists fell from power at the hand of the Mujahideen and Taliban, and the failure of communism worldwide was a huge humiliation to them. The communists were thrown off the political, social and governmental stage. When democracy was established, Mr. Karzai invited former government workers to assist the current government in restoring governmental offices destroyed by the Taliban. Different individuals returned to different offices but since the intelligence offices did not have any workers other than former communist government workers, all communists gathered to this particular office and resumed their activities. They contacted other communists and turned Gardez into the center of communist activity. The communists have a long history in Paktia province. Many powerful officials within the communist government were from Paktia province, including Najib, the majority of the communist commanders and the defense and internal affairs ministers. In fact, in the current parliament one of the well-known communists, Gulaab Zoi, who was the internal affairs minister for the communist regime and a representative of Khost province, tried to recruit people by conducting numerous meetings at the beginning to gain power and remove the opposition. They want to take revenge on the Mujahideen at any price, and one of their methods is to influence the government and coalition forces and by making false reports and telling lies. They were thought to do this by the KGB in Russia since there were not any intelligence classes in Afghanistan and all KHADists were trained in Russia.

Communist plotted and conspired against some people, and with various methods delivered reports to government and American authorities. If the authorities questioned the validity of these reports, the same people would approve their soundness. Forging documents is not difficult in Afghanistan, and these people with all the opportunities and training by the KGB, have always plotted against their opponents to eliminate them and achieve many other personal goals.

- 1- They eliminated Mujahideen, their old political adversaries.
- 2- They strengthened their position by giving the reports of so-called opposition to government and coalition forces.
- 3- They influenced people against America, which is still considered an enemy by communists, telling them that Americans imprison innocent individuals who serve their people and they even imprison their own friends.
- 4- They drove the honest people who are faithful to the government away from helping, protecting and supporting the central government so they get power and do their activities.
- 5- From this they received enough money because it was known that the Americans would pay snitches.

They wanted to make conflict amongst the people in the government.

Presiding Officer: Is this the KGB that you are talking about?

Detainee: Yes.

ISN 1154

UNCLASSIFIED // ~~FOUO~~

**Detainee:** For example, in the Province of Paktia they turned Pacha Khan, who was once a supporter of Karzai's government, they turned him against the government (Pacha Khan). As a result of this conflict there were numerous fights and conflicts between the government and Pacha Khan's Forces. There was lots of killing and fighting during this conflict and that was a bad thing of course for the Province of Paktia and Chows.

**Designated Military Officer:** (4.k) The Detainee stated that he once received a warning from the Taliban when he was attempting to run for tribal leader by the Deputy Minister of Zormat. The Detainee was told that he had become Americanized and that he should be careful.

**Detainee:** Being a candidate to the Loya Jirga (Grand Assembly) at that time in Paktia was a dangerous thing because the opposition and Taliban boycotted the Loya Jirga. A few of the members were killed and some were kidnapped; for this reason not all had the courage to be a candidate. I also received threats from different people and places. I later learned that one of those who threatened me was the Deputy Secretary of the Department of Borders. He threatened that by becoming a candidate and working with the central government and coalition forces I had become an American and I should watch out for myself.

**Designated Military Officer:** This concludes the Unclassified Summary of Evidence.

*The Designated Military Officer confirmed that he had no further unclassified information and requested a closed session to present classified information relevant to the disposition of the Detainee.*

*The Presiding Officer acknowledged the request.*

*The Presiding Officer opened the Administrative Review Board to the Detainee to present information with the assistance of the Assisting Military Officer.*

**Assisting Military Officer:** Yes sir, the Detainee would like to make an oral statement and he has also provided written documentation. I am handing the Administrative Review Board the following unclassified exhibits, marked as EC-C1 through EC-C10. Copies of these exhibits have been previously provided to the Designated Military Officer.

**Detainee:** Are you going to return my letters back to me?

**Presiding Officer:** Yes we will.

**Presiding Officer:** You may begin your statement.

*The Detainee made the following statement:*

ISN 1154

UNCLASSIFIED // ~~FOUO~~

**Detainee:** Respectful members of the Administrative Review Board, I would like to thank you for your patience and I would like to present my statement. You have been very patient with me and I appreciate that. I, the accused standing before you, who by turn of bad fortune have spent a period of nearly three difficult years in a rough environment at this prison, am, in actuality, a physician specializing in pediatrics. During the aggression of the communist regime I became a refugee; therefore, I was compelled to abandon my studies at the University of Medicine in Kabul. Subsequently, I spent a significant amount of my time as a refugee, accompanying the Mujahideen and performing the duties and services of a physician. Following the expulsion of the Russians, I abandoned all military and political activities and recommenced my studies. Sadly to say, the period of my education coincided with Taliban's suffocation of and stronghold on Afghanistan. For this reason, I took preference in being a refugee instead of working and cooperating with the Taliban. I, along with thousands of other educated people, counted the moments when the Taliban regime would collapse, for democracy to rise, and for all of us to return to our country in order to serve our people and to assist in the establishment of peace and democracy. For these reasons I returned to my country and endeavored to participate in the "Loya Jirga" (Grand Assembly), which is a national process. I supported the Karzai government as well as all those taking part within its infrastructure. I view the assistance and support of the coalition forces as an agent of hope for our people, especially the support of the United States who, during the Jihad era, helped and supported our people. The Afghans view the Americans as their one greatest friends; they have an abundance of respect for Americans because they helped get rid of the Taliban and al Qaida.

I especially think of the Americans as being the catalysts for relieving the suffering and oppression of Shiite Afghans by the Taliban, for restoring justice, for supporting intellectuals, and specifically, for restoring women's rights.

From the very beginning my intention to go to Afghanistan was to be of service to my people and to assist and support the central government of Afghanistan. Presently, with my knowledge and honesty I want to serve my people, assist my government in any manner, and I will not shy from offering my services to my people in any shape or form. I will offer my services and assistance in the establishment of the central and national government and in the establishment of a stronghold of democracy and freedom with all the forces faithful to the government. I've never been and never will be a danger to the United States; instead, I view Americans as being long-term friends of my people, and I admire their determination in establishing peace and democracy and their endeavors toward annihilating al Qaida and world terrorism. I see my imprisonment as a plot and conspiracy carried out by my enemies and wicked people, and I see myself innocent. I view my captivity as something that inflicts harm to the peace, security, and construction of my country. It is due to the propaganda of those opposed to the government that innocent people such as myself are in prison.

Prison is a place reserved for killers and criminals. I have committed no crime, nor have I committed any unlawful acts. I therefore view my imprisonment as being unlawful, and

I request the honorable Board to consider my freedom. Since my entire family is educated, myself, my brothers, my cousins, my wife and all the women in my family, we all are willing to go back to our country to help our people. Right now the majority of my family had returned back to Gardez and they are working there. One of the wishes of my wife and myself and it is mentioned on those letters, that she wants to go back to Afghanistan and serve in the government of that country. Me and my family we have always been away from Afghanistan through the communist government, Mujahideen government and the Taliban government, we were away and immigrants because we were against their ways, their ideology, their thought and their concepts. Now things are different, there is democracy and peace in Afghanistan and my family would like to return back and serve our people under the light of Democracy. Especially for women, there are opportunities to participate in the government. Under the light of the democracy that has been provided by our government and with the help of our American friends and the Coalition Forces, we would like to go and serve our people. Some of my family members did return to Afghanistan and they are helping the government.

I have been true and honest and this is something that all the interrogators can attest to. I took an oath, which is very holy amongst Afghans and other Muslims, and which in such manners is something that resolves decisions. In regard to the questions mentioned above, I've taken a polygraph as well as voice stress test, and I've proven that I'm truthful. Furthermore, interrogators who have put me through these tests have told me that I'm not guilty. You can find this information in my file. I have always acted in a respectful manner with both my interrogators and guards; I have not caused any problems with either of the two.

Furthermore, I would like to present documents from my friends and relatives as testimony. There are also people from my locality in this camp who are willing to be witnesses and offer testimony against the allegations. I would like to ask my Assisting Military Officer to get the witness statement from them verbally or written. I would like to ask the respectful members of this Administrative Review Board to please review my statement from the tribal process.

Presiding Officer: We have those and they have been reviewed.

Detainee: I would like to thank all of you and ask that you please review my file truly and with good will.

Presiding Officer: DMO we do have the documents he just mentioned?

Designated Military Officer: Yes, that's correct.

Presiding Officer: Does that conclude your statement?

Detainee: Yes.

Presiding Officer: Thank You!

*The Assisting Military Officer had no questions for the Detainee.*

*The Designated Military Officer had no questions for the Detainee.*

*Administrative Review Board Member's questions:*

Board Member: How was your time in Iran when you were a refugee?

Detainee: I was a student.

Board Member: Did you have a job at that time?

Detainee: I was doing side work, part-time jobs but I didn't have an official job. I had jobs only a student would do.

Board Member: I understand. What do you think of the Iranian Government?

Detainee: I can speak for all the Afghan refugees living in Iran, nobody liked the Iranian Government and all Afghans did not look at the Iranian Government as a good government.

Board Member: So they were looking forward to going home?

Detainee: Yes indeed.

Board Member: Did you get married in Iran or Afghanistan?

Detainee: In Iran, but my wife is Afghan not Iranian.

Board Member: You said during that time period you went back and forth between Iran and Afghanistan a number of times during the Russian occupation?

Detainee: Pakistan.

Board Member: Pakistan, I stand corrected. How many times did you go back and forth?

Detainee: There is not an official border between Pakistan and Afghanistan, especially near my Province of Paktia, it is right on the border of Pakistan. I would go a couple of times a year and it has never been a problem. I personally traveled a couple of times a year.

Board Member: This is not so much a question as it is an observation. You are a children's doctor so how can a children's doctor have so many enemies and people who want to cause you hardship?

Detainee: I did mention some of the reasons, which were religious, tribal and language and these types of personal animosities. My family is educated and my father has more money than the majority of the people in that area. The jealousy also plays a roll. I would like to mention my father owns lots of land in our Province and the Taliban would fabricate the documents and would take the land from people by force. The new government under Karzai announced if anyone comes with the original documents for having land we would give their land back to them. So when returning back to Afghanistan it made some people nervous because they knew we were going to collect our land back. They got nervous and they got jealous.

Presiding Officer: If you were transferred back to Afghanistan, how do you feel you would be received by the Karzai Government?

Detainee: I am 100% sure that if I go back to Afghanistan they would look at me as a servant to their government. As a person who would work for them because when they did the Grand Assembly I was and an activist for Karzai.

Presiding Officer: Were you an actual member of the Grand Assembly?

Detainee: Yes.

Presiding Officer: How were you selected as a representative for the Assembly?

Detainee: It is not a parliament first of all.

Presiding Officer: I understand that.

Detainee: My close friends and the people of Gardez selected me. First I was elected by the people of my own village and then the other people from other villages in Gardez chose four candidates and one of them was me.

Presiding Officer: When did you live in Pakistan, the years?

Detainee: During the five years of jihad I lived in Pakistan.

Presiding Officer: Could you give me the years?

Detainee: Since I became an immigrant, I went to Pakistan in 1982.

Presiding Officer: How long did you live there?

Detainee: Until 1990.

Presiding Officer: Did you live in Iran?

Detainee: After 1990, in 1991 I was in Iran. Until the fall of Taliban.

Presiding Officer: So approximately, until 2001.

Detainee: April 2002, I came back.

Presiding Officer: I do find it hard to believe that someone could make an allegation against you no matter how strong and the United States government would imprison you and fly you all the way to Cuba. I find that difficult to believe.

Detainee: Exactly, I never thought for a second that I would be detained by the Americans and they were going to bring me all the way to Cuba. When I remember the allegations from the first tribunal, this court, when I look at the allegation my enemies looked at the things that were sensitive to the Americans and they knew and did it purposely. It tells me that they are professionals and they have been taught very well. The Americans are very sensitive towards their enemies in Afghanistan. My personal enemies connect me with Mansour and the Iranian government to make it look like [something wrong]. Unfortunately I couldn't afford to go anywhere but Iran like other Afghans. There were thousands other Afghan. During Jihad I kind of know that not Mansour but his father was one of the leaders of the Islamic Movement and he was killed. I don't know anything about his son or have any connections with him and he is not connected to me.

Presiding Officer: Prior to your arrest, did you ever suspect that the U.S or Coalition Forces were looking for you to detain you?

Detainee: No sir, not even for a single second. I did not think about it. Not only me, not even my friends. I never did anything against the United States.

Presiding Officer: So if you here under false allegations, and I really do believe you could do some good in your country because you are an educated man, we will just have to make that decision.

Detainee: Thank you very much for the nice words and my intentions are only to sir my people and my government.

Presiding Officer: Thank you sir.

*The Presiding Officer read the post-Administrative Review Board instructions to the Detainee and adjourned the open session of the Administrative Review Board.*

*The Presiding Officer opened the classified portion of the session.*

UNCLASSIFIED // ~~FOUO~~

A- During the Russian occupation all the people of Afghanistan started an uprising against the occupiers and they gathered, organized and joined in big and small groups while the whole world supported this cause, particularly the Islamic countries and free western countries, especially America. I had expertise in medicine and while I was a refugee in Pakistan I went to Afghanistan for 2 years and a few months and helped the Mujahideen. While helping the Mujahideen I got injured. After the departure of the Russian forces from Afghanistan I got busy with my education and left all political and military activity behind. I got busy in my personal life and my education. I was a refugee in Iran the whole time during the Mujahideen's and Taliban's government. I went back to Afghanistan after the establishment of democracy to help the central government and the people of Afghanistan.

B- During the Mujahideen's Jihad, I had a weapon for my own protection. There was no training required on how to use a Kalashnikov and all Afghans had weapons and knew how to use them.

C1- During the Jihad I was with the Mujahideen who were with the Harakati Inqilab-e- Islami (Islamic Revolutionary Movement), which was formed in Afghanistan. It's not comparable with western organizations, rather everybody in their own area would get together with Mujahideen and it was not important to the people which group was with which organization. Nasroullah Mansour was one of the leaders of Islamic Revolutionary Movement, and my connection with him was like any other Mujahid's connection with the Islamic Revolutionary Movement. I don't have any personal connection with him; he was killed in 1371 (1992-1993).

C2- As mentioned above, during the occupation of Afghanistan by Russia I served with the Mujahideen of the Islamic Revolutionary Movement as a medical doctor. I went to Afghanistan with the Mujahideen a few months out of a year and I have no ties with any other political group and am not part of any group.

C3- I consider connection with foreigners a big deficiency and betrayal to my country, therefore I have never used this word. I consider this a lie and false accusation. I was a refugee in Iran. There are more than two million [Afghan] refugees living in Iran and more than that live in Pakistan and other countries. If any of these people were to return to their country to help

and serve and face an accusation like this, would anybody dare to come back to their country? Does living in another country as a refugee make him an agent of that country? Is not this accusation, without cause, made of thousands of educated and intellectual people, the work of the enemies of the country who don't want these people to return to Afghanistan and democracy? This is exactly what this accusation without cause is: a plot, a trick, and conspiracy of the people who wanted to keep me away from the scene.

C4- Neither I saw or know Saiful Rahman Mansour, nor do I have any connection with him. I only heard his name on the radio. During the Taliban I was not in Afghanistan and I never mentioned in my written defense statement in the first court that I have been a representative of these kinds of people. I consider any connection with these people whose hands are tainted with the blood of our nation a deficiency and a shame.

D1- These reports are false, and I neither paid any members of the Grand Assembly nor did I go there to become a member. There were no votes to buy in this provisional National assembly because the voting was for the presidency. Most of my friends and I voted for Karzai and there was no need to buy any votes for him. Furthermore, during the election of the Grand Assembly none of the members of the Gardez zone spend any money. This is an obvious lie because the election was controlled by the UN and there was no problem in the Gardez zone. If there were any problems a report would have been given to the GrandAssembly or UN

D2- There were about 1550 participants in the Preliminary Grand Council. If these 5 members are well known please ask them who gave them money and why? If one of them says I gave them money, then I will admit to all the allegations because this issue is a pure lie. For better clarification of this fabrication I should mention that parliament is not the responsibility of the Grand Council. It was organized this year and the election took place on September 18, 2005. How is it possible to give someone money for gaining a vote that is needed 3 years later?

D3- This question does not relate to me and there is no need for me to answer that.

D4- I returned to my homeland along with my brothers and friends to serve the people, support the central government, stabilize democracy and rebuild our country. I wanted to facilitate the conditions for the return of my family, to build my house and start a job. I have neither been sent to Afghanistan by anybody else nor have I carried money from anyone. My company was Dr. Ismail, my brother, and Dr. Reza, my cousin, who were not ordinary people. How could such well-known individuals with established academic backgrounds and personalities transfer money in such difficult and unsafe conditions of that time? Hearing the name of Mansour and other criminals like him is reminiscent of the hardship and blood shed era for the people of Gardez and I have never had any connection with him. I haven't had any links with any financial resource nor have I had any money with me. This plot was coordinated by liar-conspirators to achieve personal gain. On other hand there are no anti coalition groups in Gardez. The city of Gardez consists of 14 Farsi speaking villages that were rescued from blood shed and hardship by the establishment of democracy and a coalition government. They seek happiness and prosperity with the central government under the leadership of Mr. Karzai. They never associated with the enemies of this government but always showed their total support in war against its enemies. I was in Gardez for 2 days, if I had money with me then, what happened to that money? You have my hand-bag with you.

D5- I went to Gardez for the first time after the fall of the Taliban in late April 2002 to see my country and family. With the encouragement and support of the people I participated in the election process for senators and was elected a member of the senate from the people of Gardez. After 3 months and a few days in (early August) I went to Iran via Afghan Airlines and in 2003 I was in Hajj/ Mecca. Everybody knows I was in Hajj in that year and the time of the Hajj is very clear.

The people of Gardez welcomed us because it is a custom to welcome Hajjis; they go to visit those who return from Hajj. I have some documents in that regard, and Hajj cards might be in my wallet. Since I was not in Afghanistan, how could the coalition forces chase me? Since I have never committed any wrongdoing, the coalition forces have never been following me. In the month of August that year also I was welcomed by the people. I have never traveled to Afghanistan secretly and that report is wrong. As I mentioned earlier, I have no relation to Mansour's family. They are from Zurmat and I am from Gardez, and in the time of Taliban I haven't gone to Afghanistan.

4a- I have never cooperated with them and I have been against them. In the time of their government I was a refugee and I preferred all the difficulties of being away from home over accepting any position with them. In the time of their government I did not go to Afghanistan for even one single day to take care of my estates and personal property. After the fall of the Taliban I went to Afghanistan for the first time in late April 2002. With the encouragement of people I was the speaker for Grand Council and I talked in support of democracy and the coalition forces as a token of appreciation for them. This scene was filmed by international observers. I believe that the existence of Americans is very beneficial to the stabilization of democracy and preservation of peace in Afghanistan. I have never been in ideological agreement with those who are against Americans.

4B- I only had enough money for my own expenses during this trip and did not have any extra money.

4C- I never had any ties or links with anti government groups and never associated with them in any area. As previously mentioned I did not assist Mansour or anybody else against the central government of Mr. Karzai. I was a supporter and helper for the government everywhere.

4D & 4E- I was not in Afghanistan during the Taliban regime, therefore I did not participate in any anti-American or anti-coalition movement or operation and never had any associations or relations with those who oppose the central government. There are several facts that prove my opposition against Taliban. I was an immigrant, homeless and straggly during the Taliban rule. They are extremist Pashtuns, while I am Farsi speaker. They are Mullahs and Sunni Muslim, while I am educated and Muslim. They are narrow minded and cruel while I am an intellectual individual who looks at everything under the light of peace, security and establishment of a strong central government. Therefore there is nothing in common between me and the Taliban or al Qaida. I have always been against their thoughts, ideology and actions.

4F- I call the killing of innocent people under any name a crime to humanity, and especially condemn this tragedy and call those who were responsible for this attack criminals.

4G- During the Taliban regime Shiites and Farsi speakers had to go through lots of difficulties. They had to face massive killings, lootings and invasions. In many areas, people even did not have the right of performing their religious rituals, beliefs or even speaking the Farsi language. Establishment of democracy with the help of American power removed all these tragedies and for the same reason Shiites look at this as a hope for their survival. Now thanks to democracy and peace-keeping coalition forces, one of Mr. Karzai's assistants is Shiite and there are few Shiites ministers working in the current cabinet. In our new constitution the Shiite religion has been recognized as an official religion and the Farsi language is the official government language as well.

4H- I would like to serve my people and my government under the light of peace and freedom with honesty and proficiency in the medical area.

4I- I am certain that my detention is a mistake. As a result of my detention, other intellectual individuals like me who are determined to return to their homeland with the intention of serving their country and people will hesitate to return because of fear of facing similar problems. This would do damage to our government. This would make professionals who are faithful to our government run away. I, as a servant and representative of the people and as a member of the Loya Jerga, who's intention was nothing but serving the people, had to face these difficulties because of false reports. Making false reports is not a hard thing to do in Afghanistan, especially for the former communists of KHAD (Government intelligence services), who were trained by the KGB. It is easy for them to find governmental documents and seals. In order to achieve their goals they would use any means to eliminate opposition from their path. They are attempting to weaken the government and to harm the reputation of coalition forces.

4J- This plot and conspiracy against me was organized by personal enemies, political opponents, and even the Taliban and their remains and former communists with the help of KHAD, and individuals trained by the KGB. They achieved their goals. It is necessary to mention that from long before and especially because of war and killings there are numerous differences. Conflicts and fanaticism based on tribal, language, religious, ideological, political and territorial differences exist. Unfortunately, due to the lack of central government and national autonomy, each group uses all possible tools to remove their opposition. Unfortunately in Paktia province, in

addition to language differences between the majorities of Pashtuns and Farsi speakers in the city of Gardez, and Shiites, especially in our village, which is the only Shiite village in the entire Paktia province, there are deep differences among the different groups. For example, conflicts between communists and Mujahedins. The communists fell from power at the hand of the Mujahedin and Taliban, and the failure of communism worldwide was a huge humiliation to them. The communists were thrown off the political, social and governmental stage. When democracy was established, Mr. Karzai invited former government workers to assist the current government in restoring governmental offices destroyed by the Taliban. Different individuals returned to different offices but since the intelligence offices did not have any workers other than former communist government workers, all communists gathered to this particular office and resumed their activities. They contacted other communists and turned Gardez into the center of communist activity. The communists have a long history in Paktia province. Many powerful officials within the communist government were from Paktia province, including Najib, the majority of the communist commanders and the defense and internal affairs ministers. In fact, in the current parliament one of the well-known communists, Gulaab Zoi, who was the internal affairs minister for the communist regime and a representative of Khost province, tried to recruit people by conducting numerous meetings at the beginning to gain power and remove the opposition. They want to take revenge on the Mujahedin at any price, and one of their methods is to influence the government and coalition forces and by making false reports and telling lies. They were thought to do this by the KGB in Russia since there were not any intelligence classes in Afghanistan and all KHADists were trained in Russia.

They plotted and conspired against some people, and with various methods delivered reports to government and American authorities. If the authorities questioned the validity of these reports, the same people would approve their soundness. Forging documents is not difficult in Afghanistan, and these people with all the opportunities and training by the KGB, have always plotted against their opponents to eliminate them and achieve many other personal goals.

- 1- They eliminated Mujahideen, their old political adversaries.
- 2- They strengthened their position by giving the reports of so-called opposition to government and coalition forces.
- 3- They influenced people against America, which is still considered an enemy by communists, telling them that Americans imprison innocent

individuals who serve their people and they even imprison their own friends.

- 4- They drove the honest people who are faithful to the government away from helping, protecting and supporting the central government so they get power and do their activities.
- 5- From this they received enough money because it was known that the Americans would pay snitches.

4K- Being a candidate to the Loya Jirga (Grand Assembly) at that time in Paktia was a dangerous thing because the opposition and Taliban boycotted the Loya Jirga. A few of the members were killed and some were kidnapped; for this reason not all had the courage to be a candidate. I also received threats from different people and places. I later learned that one of those who threatened me was the deputy secretary of the department of borders. He threatened that by becoming a candidate and working with the central government and coalition forces I had become an American and I should watch out for myself.

I, the accused standing before you, who by turn of bad fortune have spent a period of nearly three difficult years in a rough environment at this prison, am, in actuality, a physician specializing in pediatrics. During the aggression of the communist regime I became a refugee; therefore, I was compelled to abandon my studies at the University of Medicine in Kabul. Subsequently, I spent a significant amount of my time as a refugee, accompanying the Mujahidin and performing the duties and services of a physician. Following the expulsion of the Russians, I abandoned all military and political activities and recommenced my studies. Sadly to say, the period of my education coincided with Taliban's suffocation of and stronghold on Afghanistan. For this reason, I took preference in being a refugee instead of working and cooperating with the Taliban. I, along with thousands of other educated people, counted the moments when the Taliban regime would collapse, for democracy to rise, and for all of us to return to our country in order to serve our people and to assist in the establishment of peace and democracy. For these reasons I returned to my country and endeavored to participate in the "Loya Jirga" (Grand Assembly), which is a national process. I supported the Karzai government as well as all those taking part within its infrastructure. I view the assistance and support of the coalition forces as an agent of hope for our people, especially the support of the United States who, during the Jihad era, helped and supported our people.  پول نداده و نه تویم جریمه اضطرابی هیچ رای قابل خرید نبود است چون رای تری با آنرا است در دست  
 صحت گرفت که منند و اگر در دست منند به گزری رای دارد ایم و با آنرا نیز به خرید رای نبوده است

و چون در جریان انتخابات تویم جریمه هیچ یک از نمایندگان حلقه تریز پول صرف نکردند این یک دروغ  
 واضح بعد چون انتی بات تحت نظر ناظرین سازمان عمل بوده و هیچ خلافی در حلقه تریز حقیقت نگرفت  
 و اگر چنین بود حتماً را باور آن به کمیسیون تویم جریمه و سازمان عمل داده می شد

(۱۲) در مورد جزای اخطاری حدود ۱۵۵۰ نفر استراتی عقد بعد از ظهور اسلام در این بنوع عقد  
تحقیق هستند نه آنجا پیرامید که می باشد آنجا پول در ده است و بر آنجا کار نیز یک نفر گفت که من  
و او پول داده ام هم آنها را قبول کرد چون این مستند دروغ محض است که در این نزد  
بسته این دروغ سازی به یاد آوردم که در همان وقته بود جزای اخطاری بنوع دیگر که  
امسال متشکرات و انتقادات آن در ۱۸ سپتامبر ۲۰۰۵ بر آنجا گردید است چگونه ممکن است  
و کسی پول بدهد که سه سال بعد از ظهور ای بدهند ؟

(۱۳) جواب این سوال مربوط به بدعت نیست ؟ و به من لایق طاعت ؟

(۱۴) من همراه با برادرانم و دیگر دوستان به ابر خدمت به مردم و حمایت از دولت مرکزی و استوار  
و حاکمیت و مکرر اسی و کمک و صلح و بر سازی به کشور خدمت می گزینم و می خدا قسم از من به گوت  
به ای خانوار و فاعیل خدمت می کنیم و خانه خدمت را غیر خدمت در زمین کار را بر آن خود آواره سازم من  
که طرف هیچ کسی و به نمایندگی هیچ کسی به افتخار نشان نیامده و از جانب هیچ کسی نیز پول نیامده  
و حاصل پول عبودیت هر احسان من و دکتر اعلیٰ بلسم و دکتر رفیع بنوعیم که اولاد عا بنوعیم و جعفر و اولاد  
متخصص و به تحقیق علمی در شرایط ناسازگار نشان افتخار نشان کار انتقال پول را انجام می دهند  
و در این شهر و ایام هیچ جنایتی که آن مردم گردیده اند در این سخت جنگ و خونریزی است و هیچ  
با اولاد طاعت نشسته ام و با هیچ منع پولی نیز لایق طاعت نشسته ام و هیچ پولی نیز به من نبوده است  
این تو طاعت و رسید را را بر چو در و ظهور از رسید به اهداف خدمت به ای طرح نیز کرده اند  
که طرف نیز در نیز هیچ گروه خدمت نیز در آنست و جبهه نه در آن شهر نیز در مشکل نه ۱۴ فر  
فارسی زبان بوده که با آمدن و مکرر اسی و توانی اشتد نه هم شکست و در نیز در بنوعیم و هم نه  
حاکمیت دولت مرکزی که آن مرکزی سعادت و در نیز در خدمت می خواهند و هیچگاه به فانی دولت همراه  
نبود و حمایت کامل خدمت را از دولت مرکزی در جبهه عا بنوعیم و فانی دولت که خدمت نشان در ده اند و در  
در نیز در بنوعیم و در نیز در بنوعیم و بنوعیم هر آنرا چه شد ؟ چون کیف و سبکی من فراد که است
